II. Discussion

Dominic Piazza came to the meeting. He had a proposal for the PNR board, as well as the twp. Due to a residual amount of money left from a Southview resident's will, he and his church board would like to renovate the park at Southview. This includes paving, new equipment etc. as well as a plaque in the donor's honor. All of the improvements would be at no cost to the township. He also requested contractor recommendations, if applicable.

After discussion, the PNR board unanimously agreed that the proposal was good and request that the township supervisors approve his request.

III. Roundtable

The bridge at the park is still standing and must be removed. It is hazardous. There are citizens who have been repairing it themselves! The PNR board requests this be done ASAP. This is a continuing request, why is there no response?

Additional park equipment is broken and concrete exposed. The equipment needs removed and the concrete covered. The rocks/concrete blocks that make up the play area under and around the bridge are a continuing problem as well.

Per previous meetings, suggestion reviews and approvals, the funds for improvements have not been disbursed, nor have the improvements been made. When and where will this take place? What other information from the PNR does the township require?

Meeting adjourned at 7:30 pm.
